

ICSOC-ServiceWave 2009 Programme

Monday - November 23rd, 2009 - WORKSHOPS

Registration open 09.00 am - 17.30

Workshops					
	Service Engineering Track	Business Models & Architectures Track	Service Quality and Service Level Agreement Track	Track - Business Experiences Track	Track - Technologies for Services
10:00 am - 11:30 am	WESOA'09: Fifth International Workshop on Engineering Service-Oriented Applications	TEAR-2009: The 4th Workshop on Trends in Enterprise Architecture Research	NFPSLAM-SOC'09: Non Functional Properties and Service Level Agreement Management in Service Oriented Computing	Industrial Experience for Service-Oriented Computing	
11:00 am - 11:30 am	Coffee Break				
11:30 am - 13:30 pm	WESOA'09	TEAR-2009	NFPSLAM-SOC'09	Industrial Experience for Service-Oriented Computing	
13:30 pm - 14:30 pm	Lunch				
14:30 pm - 16:00 pm	WESOA'09	SG-PAW 2009: 1st International Workshop on SOA, Globalization, People, & Work	NFPSLAM-SOC'09	Common Capabilities for Service Oriented Infrastructures and Cloud Computing	Identity Management in Service Oriented Architectures
16:00 pm - 16:30 pm	Coffee Break				
16:30 pm - 18:00 pm	WESOA'09	SG-PAW 2009	MONA+: 2nd International Workshop on Service Monitoring, Adaptation and Beyond	Common Capabilities for Service Oriented Infrastructures and Cloud Computing	Identity Management in Service Oriented Architectures

ICSOC-ServiceWave 2009 Programme

Tuesday Morning - November 24th, 2009 - WORKSHOPS

Registration open 09.00 am - 17.30

Workshops					
	Service Engineering Track	Business Models & Architectures Track	Service Quality and Service Level Agreement Track	Track - Business Experiences Track	Track - Technologies for Services
9:00 am			MONA + (! Starting at 9:00 instead of 9:30 am)		
9.30 am - 11.00 am	International Workshop on User-generated Services	SOC-LOG: 1st International Workshop on Service Oriented Computing in Logistics		Business Opportunities and Challenges for Grid and Cloud Computing	Event-Driven Business Process Management
11.00 am - 11.30 am	Coffee Break				
11.30 am - 13.30 pm	International Workshop on User-generated Services	SOC-LOG: 1st International Workshop on Service Oriented Computing in Logistics	MONA+	Business Opportunities and Challenges for Grid and Cloud Computing	Event-Driven Business Process Management
13.30 pm - 14.30 pm	Lunch				

ICSOC-ServiceWave 2009 Programme

15.00 pm Official Opening of ICSOC-ServiceWave 2009

Tuesday - November 24th, 2009

15.00 pm - 16.00 pm	Opening Session <i>Room Electrumsalen</i> Welcome to ICSOC-ServiceWave 2009 Software Related Services: a Key Element in the Future Internet Software Engineering Challenges for Service-Oriented Computing Questions & Answers	Dr. Gunnar Landgren, Vice-Rector, KTH Dr. Reinhold Achatz, CTO, Siemens Pr. Bashar Nuseibeh, Chief Scientist, Lero
16:00 - 16:30 pm	Coffee Break	
16:30 pm - 18:00 pm	"Services in the Future Internet" <i>Room Electrumsalen</i> Mr. Mario Campolargo, EU Director "Emerging Technologies and Infrastructures" Dr. Staffan Truve, CEO Sics, Chairman of the Swedish Foresight Study "Ambient Sweden" David Kennedy, Chairman of the European Future Internet Initiative Questions & Answers	
18:30 pm	Bus transportation from Conference Centre to Welcome Cocktail	
19:00 pm	Welcome Cocktail - hosted by the Stockholm Mayor at the Stockholm City Hall	
21:00 pm	Bus transportation from Stockholm City Hall to Conference Centre	

ICSOC-ServiceWave 2009 Programme

Wednesday - November 25th, 2009

Registration open 09.00 am - 17.30

09.00 am - 10.00 am	Keynote "How to make money out of cloud computing?" by Joan Masso, CEO Gridsystems <i>Room Electrumsalen</i>			
10.00 am - 10.30 am	Coffee Break			
10.30 am - 12.00 am	Research papers - 01 Composition <i>Room Electrumsalen</i>	Research papers - 02 Discovery <i>Room Filen</i>	Demonstrations presentation session <i>Room Arkivet</i>	Internal meeting <i>Room Utvägen</i>
12.00 am - 13.30 pm	Lunch			
13.30 pm - 15.00 pm	Panel "One year of Future Internet: is cloud computing the new wave?" <i>Room Electrumsalen - Chaired by Santi Ristol, Atos Origin Innovation / INES Chairman</i>			
	Panellist	Mike Boniface	IT Innovation	Internal meeting - by invitation only
	Panellist	Yaron Wolfsthal	IBM	
	Panellist	Theo Dimitrakos	BT	
	Panellist	Tarry Singh	Atos Origin BU / Avastu	
	Panellist	John Barr	The 451 Group	
	Panellist	Joan Masso	Grid Systems CEO	
15.00 pm - 16.30 pm	Research papers - 03 Design principles <i>Room Electrumsalen</i>	Research papers - 04 Customization and adaptation <i>Room Filen</i>	Demonstrations presentation <i>Room Arkivet</i>	<i>Room Utvägen</i>
16.30 pm - 17.00 pm	Coffee Break			
17.00 pm - 18.30 pm	Research papers - 05 Negotiation, agreement and compliance <i>Room Vinterträdgården</i>	Research papers - 06 Selection <i>Room Filen</i>	Industry Papers - 15 <i>Room C1</i>	Demonstrations presentation <i>Room Arkivet</i>
	Session 05 ends at 19:00 pm		Session 15 ends at 19:00 pm	Internal meeting - by invitation only <i>Room Utvägen</i>
19.00 pm - 21.00 pm	Demonstration evening (18 demonstrations) / Sandwiches & drinks - Room Electrumsalen			

ICSOC-ServiceWave 2009 Programme

Thursday - November 26th, 2009

Registration open 09.00 am - 17.30

09.00 am - 10.00 am	Keynote - the interlinking of Services, Content and Things by Dr.Adam Dunkels - Networked Embedded Systems Group, SICS <i>Room Electrumsalen</i>				
10.00 am - 10.30 am	Coffee Break				
10.30 am - 12.00 am	Research papers - 07 Platforms and infrastructures <i>Room Electrumsalen</i>	Research papers -08 Short papers I <i>Room Filen</i>	NESSI National Initiatives Meeting <i>Room C1</i>	Collaboration meeting - Model Driven Approach for Complex Service Architectures and Engineering <i>Room Arkivet</i>	PhD Symposium <i>Room Utvägen</i>
12.00 am - 13.30 pm	Lunch				
13.30 pm - 15.00 pm	Panel "Services, Content and Things : how do they fit together?" <i>Room Electrumsalen - Chaired by Sergio Gusmeroli, Txt</i>			Collaboration meeting - Model Driven Approach for Complex Service Architectures and Engineering <i>Room Arkivet</i>	PhD Symposium <i>Room Utvägen</i>
	Panellist	Massimo Ippolito	FIAT		
	Panellist	Patrick Guillemin	ETSIT		
	Panellist	Ovidiu Vermesan	Sintef		
	Panellist	Frédéric Gittler	HP Labs		
	Panellist	Man Sze Li	IC Focus Ltd		
	Panellist	Adam Dunkels	SICS		

ICSOC-ServiceWave 2009 Programme

Thursday - November 26th, 2009 (continued)

15.00 pm - 16.30 pm	Research papers - 09 Security <i>Room Electrumsalen</i>	Research papers - 10 Short papers II <i>Room Filen</i>	NESSI General Assembly <i>Room C1</i>	Collaboration meeting - Model Driven Approach for Complex Service Architectures and Engineering <i>Room Arkivet</i>	PhD Symposium <i>Room Utvägen</i>
16.30 pm - 17.00 pm	Coffee Break				
17.00 pm - 18.00 pm	Research papers - 11 Modeling and design <i>Room Electrumsalen</i>	Research papers - 12 Validation & verification <i>Room Filen</i>	NESSI General Assembly <i>Room C1</i>	Collaboration meeting - Model Driven Approach for Complex Service Architectures and Engineering <i>Room Arkivet</i>	PhD Symposium <i>Room Utvägen</i>
18:30 pm	Bus transportation from Conference Centre to Vasa Museum				
19:00 pm	Vasa Museum - private visit				
20.00 pm	Gala Dinner - Vasa Museum				
23:00 pm	Bus transportation from Vasa Museum to Conference Centre				

ICSOC-ServiceWave 2009 Programme

Friday - November 27th, 2009

09.00 am - 10.30 am

Research papers - 13	Research papers - 14
Reputation and ranking	Service Management
<i>Room Electrumsalen</i>	<i>Room Filen</i>

10.30 am - 11.00 am

Coffee Break

11.00 am - 12.30 pm

Panel "Architecture - Enablers or Barriers to the Future Internet?"

Room Electrumsalen - Chaired by Stefano De Panfilis, Engineering / Technical Director, NESSI

	Panellist	Nuria De Lama	Atos Origin / SOA4ALL
	Panellist	Tonny Velin	Answare
	Panellist	Martin Körling	Ericsson
	Panellist	Name pending	IBM

12.30 pm - 14.00 pm

Lunch

14.00 pm - 15.30 pm

Closing Ceremony

Room Electrumsalen

Presentation by Martin Körling

Ericsson Research Director, Service Layer Technologies

Future research and collaboration opportunities in 2010 by Frédéric Gittler

HP Labs / NESSI SC Chairman

15.30 pm

End of ICSOC-ServiceWave 2009

ICSOC-ServiceWave 2009 - Papers - 25, 26 & 27/11/2009

<i>Session</i>		<i>Paper</i>	<i>Authors</i>
01	Composition	Facilitating Workflow Interoperation using Artifact-centric Hubs	Hull, Richard; Narendra, Nanjangud; Nigam, Anil
01	Composition	Aspect Orientation for Composite Services in the Telecommunication Domain	Niemöller, Jorg;Levenshteyn Roman;Freiter, Eugen;Vandikas, Konstantinos;Quinet, Raphaël;Fikours, Ioannis
01	Composition	Intelligent Overload Control for Composite Web Services	Meulenhoff, Pieter; Ostendorf, Dennis; Zivkovic, Miroslav; Meeuwissen, Hendrik; Gijzen, Bart
02	Discovery	Trust-Oriented Composite Services Selection and Discovery	Li, Lei; Wang, Yan; Lim, Ee_Peng
02	Discovery	A Two-Tiered Approach to Enabling Enhanced Service Discovery in Embedded Peer-to-Peer Systems	Fuentes, Thailze; Corfini, Sara; Brogi, Antonio
02	Discovery	Web Service Selection with Incomplete or Inconsistent User Preferences	wang, hongbing
03	Design principles	Energy-aware Design of Service-Based Applications	Ferreira, Alexandre Mello; Kritikos, Kyriakos; Pernici, Barbara
03	Design principles	Action Patterns in Business Process Models	Smirnov, Sergey; Weidlich, Matthias; Mendling, Jan; Weske, Mathias
03	Design principles	Artifact-Centric Workflow Dominance	Calvanese, Diego; De Giacomo, Giuseppe; Hull, Rick; Su, Jianwen
04	Customization and adaptation	Requirements-Driven Collaborative Choreography Customization	Mahfouz, Ayman; Barroca, Leonor; Laney, Robin; Nuseibeh, Bashar
04	Customization and adaptation	An Automatic Approach to Enable Replacement of Conversational Services	Cavallaro, Luca; Di Nitto, Elisabetta; Pradella, Matteo
04	Customization and adaptation	Towards Adaptable SOA:Model Driven Development, Context and Aspect	HAMMOUDI, Slimane; MONFORT, Valérie
05	Negotiation, agreements and compliance	Modelling Service Level Agreements with Binary Decision Diagrams	Kotsokalis, Constantinos; Yahyapour, Ramin; Rojas Gonzalez, Miguel Angel

ICSOC-ServiceWave 2009 - Papers - 25, 26 & 27/11/2009

<i>Session</i>		<i>Paper</i>	<i>Authors</i>
05	Negotiation, agreements and compliance	Provider-Composer Negotiations for Semantic Robustness in Service Compositions	Lecue, Freddy; Mehandjiev, Nikolay; Wajid, Usman
05	Negotiation, agreements and compliance	Evaluating Contract Compatibility for Service Composition in The SeCO2 Framework	Comerio, Marco; Truong, Hong-Linh; De Paoli, Flavio; Dustdar, Schahram
05	Negotiation, agreements and compliance	Explaining the Non-Compliance between Templates and Agreement Offers in WS-Agreement	Müller, Carlos; Resinas, Manuel; Ruiz-Cortés, Antonio
06	Selection	A Probabilistic Approach to Service Selection with Conditional Contracts and Usage Patterns	Klein, Adrian Helmut David; Ishikawa, Fuyuki; Bauer, Bernhard
06	Selection	ServiceTrust: Supporting Reputation-Oriented Service Selection	He, Qiang; Yan, Jun; Jin, Hai; Yang, Yun
06	Selection	QoS Browsing for Web Service Selection	Ding, Chen; Sambamoorthy, Preethy
07	Platforms & infrastructures	An Orchestration as a Service Infrastructure using Grid Technologies and WS-BPELÂ	Höing, André; Scherp, Guido; Gudenkauf, Stefan; Meister, Dirk; Brinkmann, André
07	Platforms & infrastructures	The FAST Platform: An Open and Semantically-enriched Platform for Designing Multi-Channel and Enterprise-Class Gadgets	Hoyer, Volker; Till, Janner; Delchev, Ivan; Lopez, Javier; Ortega, Sebastian; Fernandez, Rafael; Möller, Knud Hinnerk; Rivera, Ismael; Reyes, Marcos; Fradinho, Manuel
07	Platforms & infrastructures	Message-Oriented Middleware with QoS Awareness	Yang, Hao; Kim, Minkyong; Karenos, Kyriakos; Ye, Fan; Lei, Hui
08	Short papers I	Learning the Control-flow Perspective of a Business Process using ICN-based Process Models	Rembert, Aubrey J.; Ellis, Clarence A.
08	Short papers I	Fine-Grained Recommendation systems for service attribute exchange	Staite, Christopher; Bahsoon, Rami; Wolak, Stephen
08	Short papers I	A Generative Framework for Service Process Composition	Thiagarajan, Rajesh; Mayer, Wolfgang; Stumptner, Markus
08	Short papers I	Achieving Predictability and Service Differentiation in Web Services	Gamini Abhaya, Vidura; Tari, Zahir; Bertok, Peter

ICSOC-ServiceWave 2009 - Papers - 25, 26 & 27/11/2009

<i>Session</i>		<i>Paper</i>	<i>Authors</i>
09	Security	Incorporating Security Requirements into the Service Composition: From Modelling to Execution	Rosa, Nelson Souto; Souza, André; Silva, Bruno; Damasceno, Julio; Maciel, Paulo; Medeiros, Robson; Stephenson, Bryan; Lins, Fernando; Motahari-Nezhad, Hamid; Li, Jun; Northfleet, Caio
09	Security	End-to-End Security for Enterprise Mashups	Rosenberg, Florian; Khalaf, Rania; Duftler, Matthew; Curbera, Francisco; Austel, Paula
09	Security	A Genetic Algorithms-based Approach for Optimized Self-protection in a Pervasive Service Middleware	Zhang, Weishan; Schuette, Julian; Ingstrup, Mads; Hansen, Klaus M.
10	Short papers II	Role of Process Modeling in Software Service Design	Patig, Susanne; Wesenberg, Harald
10	Short papers II	Assisting Trustworthiness based Web Services Selection Using the Fidelity of Websites	Wang, Lijie; Liu, Fei; Li, Ge; Gu, Liang; Zhang, Liangjie; Xie, Bing
10	Short papers II	Web Service Search on Large Scale	Steinmetz, Nathalie; Lausen, Holger; Brunner, Manuel
10	Short papers II	Enabling Adaptation of Pervasive Flows: Built-in Contextual Adaptation	Marconi, Annapaola; Pistore, Marco; Sirbu, Adina; Leymann, Frank; Eberle, Hanna; Unger, Tobias
11	Modeling & design	A service-oriented UML profile with formal support	Lluch Lafuente, Alberto; Bruni, Roberto; Hözl, Matthias; Koch, Nora; Mayer, Phillip; Montanari, Ugo; Schroeder, Andreas; Wirsing, Martin
11	Modeling & design	Designing workflows on the fly using e-BioFlow	Wassink, Ingo; Ooms, Matthijs; van der Vet, Paul E.
11	Modeling & design	Measuring the Quality of Service Oriented Design	Sindhgatta, Renuka; Sengupta, Bikram; Ponnalagu, Karthikeyan
12	Validation & verification	Specification, Verification and Explanation of Violation for Data Aware Compliance Rules	Awad, Ahmed; Weidlich, Matthias; Weske, Mathias
12	Validation & verification	Generating Interface Grammars from WSDL for Automated Verification of Web Services	Halle, Sylvain; Hughes, Graham; Bultan, Tefvik; Alkhalaf, Muath
12	Validation & verification	Satisfaction of Control Objectives by Control Processes	Marino, Daniela; Massacci, Fabio; Micheletti, Andrea; Rassadko, Nataliya; Neuhaus, Stephan

ICSOC-ServiceWave 2009 - Papers - 25, 26 & 27/11/2009

<i>Session</i>		<i>Paper</i>	<i>Authors</i>
13	Reputation and ranking	Effective and Flexible NFP-based Ranking of Web Services	Palmonari, Matteo; Comerio, Marco; De Paoli, Flavio
13	Reputation and ranking	Combining Quality of Service and Social Information for Ranking Services	Wu, Qinyi; Iyengar, Arun; Subramanian, Revathi; Rouvellou, Isabelle; Silva-Lepe, Ignacio; Mikalsen, Thomas
13	Reputation and ranking	Web Services Reputation Assessment Using a Hidden Markov Model	Malik, Zaki; Akbar, Ihsan; Bouguettaya, Athman
14	Service management	MC-Cube: Mastering Customizable Compliance in the Cloud	Anstett, Tobias Markus; Karastoyanova, Dimka; Leymann, Frank; Mietzner, Ralph; Monakova, Ganna; Schleicher, Daniel; Stra...
14	Service management	Another Approach to Service Instance Migration	Liske, Nannette; Lohmann, Niels; Stahl, Christian; Wolf, Karsten
14	Service management	Distributed, Cross-Domain Configuration Management	Pasquale, Liliana; Laredo, Jim; Ludwig, Heiko; Bhattacharya, Kamal; Wassermann, Bruno
15	Industry papers	Using Mashup Integration Services in B2B Scenarios	Siebeck, Robert ;Janner, Till ;Schroth, Christoph ;Hoyer, Volker ;Wörndl, Wolfgang ;Urmetzler, Florian
15	Industry papers	Lessons Learned from Composing Web Services and Human Activities	Lin, Donghui ;Murakami, Yoshiaki ;Ishida, Toru ;Murakami, Yohei ;Tanaka, Masahiro
15	Industry papers	Medical equipment maintenance workflow monitoring with service-oriented multi-agent services	Lopez, Beatriz ;Martín, Alberto ;Daroca, David ;Meléndez, Joaquim ;Lozano, Sara
15	Industry papers	Improving quality of the service engagement process using a GUI-based software tool	Rhodes, James;Chen, Tianwei;Councill, Isaac G;Johns, Kenneth;Lehman, Toby;Strong, Ray;Zhou, Ruoyi;Lovero, William
15	Industry papers	Tenant Behavior Analysis in Software as a Service Environment	Duan, Ning;Zhang, Xin;Sun, Wei;Jiang, Zhongbo

ICSOC-ServiceWave 2009 - Workshops - 23 & 24/11/2009

!! The final scheduling of workshops can still be modified - all workshops take place between Monday 10:00 and Tuesday 13:30

<i>Date</i>	<i>Time</i>	<i>Track</i>	<i>Name of track</i>	<i>Session</i>	<i>Workshop title</i>
23/11/2009	10:00	Application	Business experiences	BE 01	Industrial Experience for Service-Oriented Computing <p>The aim of this workshop is to identify the most promising research directions that can have an impact on the service industry for the purpose of aligning academic and industrial research agendas. The evaluation of different proposed approaches and benchmarks and complete case studies is needed to be able to assess which are the most promising research directions that can have an impact on the industrial development of this field.</p> <p>Contact information: Barbara Pernici (barbara.pernici@polimi.it)</p>
23/11/2009	14:30	Application	Business experiences	BE 02	Common Capabilities for Service Oriented Infrastructures and Cloud Computing <p>This is a full session workshop that brings together delegates from leading commercial, public and research organizations around the world to share experiences of commercial applications of Service Oriented Infrastructures based on the fusion of Web Services and Grid Computing paradigms as a foundation for Service Oriented IT in the 21st century. Presented by the BEinGRID project.</p> <p>Contact information: Theo Dimitrakos (theo.dimitrakos@bt.com)</p>
24/11/2009	09:30	Application	Business experiences	BE 03	Business Opportunities and Challenges for Grid and Cloud Computing <p>This workshop provides a consultancy oriented view of business opportunities and challenges for grid and cloud computing. It focuses on the latest market trends and the challenges that market players face when developing new solutions to emerging business opportunities. Special attention is paid to the business models, product strategies, service commercialization, and legal safeguards. Presented by the BEinGRID project.</p> <p>Contact information: Karita Luokkanen-Rabetino (karita.luokkanen@atosorigin.com)</p>

ICSOC-ServiceWave 2009 - Workshops - 23 & 24/11/2009

!! The final scheduling of workshops can still be modified - all workshops take place between Monday 10:00 and Tuesday 13:30

23/11/2009	14:30	Application	Technologies for Services	TS 01	Identity Management in Service Oriented Architectures
					<p>This workshop focuses on the intersection and complementary work related to the identity management in dynamic and reconfigurable service architectures and infrastructures. Presented by the projects MASTER, PrimeLife and TAS3. These projects are complementary and given their state of the art, they are likely to provide the reusable results as well as few key elements of a strategy towards embedding Security and Trust in service infrastructures.</p> <hr/> <p>Contact information: Aljosa Pasic (aljosa.pasic@atosorigin.com)</p>
24/11/2009	10:00	Application	Technologies for Services	TS 02	Event-Driven Business Process Management
					<p>This workshop presents the challenges in realizing Event-Driven BPM and describe a conceptual reference model and a reference architecture for it. This workshop will also address the integration of Complex Events, the current and future movement on edBPM-related standards (including hands-on examples and first prototypes), and the challenges of dynamically starting, stopping, terminating or changing Internet services driven by events.</p> <hr/> <p>Contact information: Rainer Ammon (rainer.ammon@citt-online.com)</p>

ICSOC-ServiceWave 2009 - Workshops - 23 & 24/11/2009

!! The final scheduling of workshops can still be modified - all workshops take place between Monday 10:00 and Tuesday 13:30

23/11/2009	10:00	Research	Business models and Architectures	BMA01	The 4th Workshop on Trends in Enterprise Architecture Research (TEAR 2009)
					TEAR is aligning the Enterprise Architecture with its business models: adapting the IT infrastructure and changing applications so that they optimally support the new business needs.
<i>Contact information</i>					joachim.schelp@unisg.ch ,
					stephan.aier@unisg.ch ,
					mschoenherr@sysedv.tu-berlin.de
23/11/2009	14:30	Research	Business models and Architectures	BMA02	1st International Workshop on SOA, Globalization, People, & Work (SG-PAW 2009)
					GLOBALIZATION (SG-PAW) is looking at enacting the new business processes by encapsulating organizational work as services that can be combined in new ways and optimize its end-to-end operations across geographical, organizational, and cultural boundaries
<i>Contact information</i>					Daniel V Oppenheim (music@us.ibm.com)
					tai@aifb.uni-karlsruhe.de
					Francisco Curbera (curbera@us.ibm.com)
					dustdar@infosys.tuwien.ac.at
24/11/2009	09:30	Research	Business models and Architectures	BMA03	SOC-LOG: 1st International Workshop on Service Oriented Computing in Logistics
					SOC-LOG is focusing on addressing the challenges of a specific application domain, namely, logistic through developing SOC based solutions and examining aspects of Knowledge Management while bringing together researchers from different, though overlapping areas (logistics/supply chain management and service-oriented computing/ systems)
<i>Contact information</i>					oerg.leukel@uni-hohenheim.de
					ludwig@wifa.uni-leipzig.de
					alexander.norta@cs.helsinki.fi

ICSOC-ServiceWave 2009 - Workshops - 23 & 24/11/2009

!! The final scheduling of workshops can still be modified - all workshops take place between Monday 10:00 and Tuesday 13:30

23/11/2009	10:00	Research	Service quality and SLA	SLA 01, 02	Non Functional Properties and Service Level Agreements Management in Service Oriented Computing Workshop (NFPSLAM-SOC'09) NFPSLAM-SOC aims to tackle the research problems around models, concepts, languages and methodologies that enable the specifications of non-functional properties and Service Level Agreements in the context of Service Oriented Computing, with a special focus on transparent, multi-level, and holistic NFP and SLA management into service oriented systems <hr/> <i>Contact information</i> Flavio De Paoli (Universita degli studi di Milano - Bicocca, Italy) Paoli (depaoli@disco.unimib.it) Ioan Toma (STI Innsbruck, Austria) (ioan.toma@sti2.at) Hui Li (SAP Research, Germany) (hui01.li@sap.com) Ramin Yahyapour (Dortmund University of Technology, Germany) Marcel Tilly (European Microsoft Innovation Centre, Germany) (marcel.tilly@microsoft.com) Andrea Maurino (Universita degli studi di Milano - Bicocca, Italy) (maurino@disco.unimib.it) Wolfgang Theilmann (SAP Research, Germany)
23/11/2009	16:30	Research	Service quality and SLA	SLA 03	2nd International Workshop on Service Monitoring, Adaptation and Beyond (MONA+) MONA+ is looking at the problems related to the monitoring and adaptation mechanisms and strategies, with a special focus on the relations and interdependencies between the network layer and the service layer. <hr/> <i>Contact information</i> Mail: karastoyanova@iaas.uni-stuttgart.de Mail: raman@fbk.eu Mail: andreas.metzger@sse.uni-due.de Mail: pistore@fbk.eu

ICSOC-ServiceWave 2009 - Demonstrations - 25/11/2009

Demonstrations will be introduced during the day in the demonstrations session on Wednesday 25/11 (see schedule on the left)

The actual demonstrations will take place during the demonstrations evening on Wednesday 25/11 from 19:00 to 21:00

10:30	Distributed Access Control Management - A XACML-based Approach	Erik Rissanen	Axiomatics	erik@axiomatics.com
10:45	FAST-SE: An ESB based Framework for SLA Trading	Pablo Fernandez	Sevilla University	pablofm@us.es
11:00	Gelee: Cooperative Lifecycle Management for (Composite) Artifacts	Marcos Baez	Trento University	baez@disi.unitn.it
11:15	Hosted Universal Integration on the Web: the mashArt Platform	Florian Daniel	Trento University	daniel@disi.unitn.it
11:30	Sec-MoS C Tooling - Incorporating Security Requirements into Service Composition	Julio Damasceno	Pernambuco University	jcd@cin.ufpe.br
11:45	Services inside the Smart Home: A Simulation and Visualization tool	Elena Lazovik	University of Groningen	e.lazovik@rug.nl
15:00	SLA Management and contract-based Service Execution	Matthias Winkler	SAP	matthias.winkler@sap.com
15:15	Citizens Services	Lanfranco Marasso	Engineering	lanfranco.marasso@eng.it
15:30	ModelPlex	Kumardev Chatterjee	Thales	kumardev.chatterjee@thalesgroup.com
15:45	The SLA@SOI framework	Miha Vuk	Xlab	miha.vuk@xlab.si
16:00	Demonstrating the S-Cube knowledge model	Andreas Gehlert	Duisburg-Essen Univ.	Andreas.Gehlert@sse.uni-due.de
16:15	SOA4ALL in action	Maurilio Zuccala	Atos Origin	Maurilio.Zuccala@cefriel.it
17:00	IT-Tude - from Service oriented IT to Business Value	Karita Luokkanen, James Ahtes	Atos Origin	karita.luokkanen@atosresearch.eu , james.ahtes@atosorigin.com
17:15	RadiotherapyGrid: Advanced computational radiotherapy services with SLAs and Enhanced Security	Karita Luokkanen, Andes Gomez Tato	Atos Origin Cesga	karita.luokkanen@atosresearch.eu , agomez@cesga.es
17:30	Mash-up as a service platform by EzWeb, Fast and MyMobileWeb	Nikolaous Tsouroulas	Telefonica	nik@tid.es
17:45	The opportunity of service-based value chains for SMEs as suppliers for the automotive domain	Nikolay Mehandjiev	University of Manchester	nikolay.mehandjiev@manchester.ac.uk
18:00	Engage: Engineering Service Modes with WS-Engineer and Dino	Howard Foster	Imperial College of London	howard.foster@imperial.ac.uk
	A Pluggable Framework for Tracking and Managing Faults in Service-oriented Systems	Gerald Kotonya	Lancaster University	gerald@comp.lancs.ac.uk

ICSOC-ServiceWave 2009 - PhD symposium - 26/11/2009

Session 1	10:30	12:00	Florian Daniel, Welcome and Introduction
			Okika, Joseph, Analyzing Orchestration of BPEL Specified Services with Model Checking
			Miede, André, Cross-organizational Service Security -- Solutions for Attack Modeling and Defense
			Allgaier, Matthias, Guided Service Integration Modelling based on Extensibility Features of Service-Oriented Enterprise Systems
Session 2	13:30	15:00	Razavian, Maryam, Knowledge-driven SOA Migration
			Pacheco-Sanchez, Sergio, Application of Data Mining to Performance Management of Distributed Enterprise Systems
			Bulanov, Pavel, Maintenance of customized processes
Session 3	15:00	16:30	Baez, Marcos, Towards an Abstraction Layer for Scientific Services
			Greiler, Michaela Simona, Online Testing of Service-Oriented Architectures to detect State-based Faults
			Leitner, Philipp, Ensuring Cost-Optimal SLA Conformance for Composite Service Providers
Session 4	17:00	18:00	Li, Haifeng, Remote Sensing Service chain Self-Evolution Method
			Yang, Xiaoxia, Remotely Sensed Image Processing Service Automatic Composition
